RESURFACING & STRIPPING IMPROVEMENTS ON COMMERCE WAY FROM 80TH TO 82ND AVENUE

Dear Residents:

Please be advised that roadway resurfacing and stripping improvements on Commerce Way from NW 80th Avenue to NW 82nd Avenue are tentatively scheduled to be completed by the end of July 2009. As part of this project, three (3) sleeve structures will be installed in the median. Upon completion of this project, the neighborhood will receive a new asphalt surface and fresh stripping. Frontage Road and NW 82 Ave will be used as a staging area during the duration of the project. Below, please see a picture and a map of the project site.

The Town understands that neighborhood construction can pose challenges for commuting residents. The Public Works Department will work closely with the contractor and the residents to minimize this impact. Prior to the commencement of this improvement project, Town staff will photograph all swale areas and driveway approaches to document existing conditions. In the unlikely event that any swale area or driveway approach should incur any construction damage, we will ensure that any of the above mentioned areas be restored to its preconstruction condition.

For inquiries, please contact Ms. Tina Rivera or Mr. Armando Munoz from the Public Works Department at 305-364-6100.
