This booklet is provided as a public service by the Town of Miami Lakes Community and Leisure Services Department (CLS)

The Town of Miami Lakes provides equal access and equal opportunity in employment and services and does not discriminate on the basis of handicap.

General Information

Town of Miami Lakes Ordinance No. 12-151 mandates the protection of the Town's tree and forest resources. The following information should assist you in understanding Town's tree and forest protection requirements. Please take the time to read this information carefully before filling out the attached application.

Where and when are tree removal permits required?

Tree removal permits are required for the cutting down, bulldozing, removal or relocation of any tree in the Town of Miami Lakes, except for certain exemptions listed on Page 3. The Town may require the property owner to modify a site plan to preserve tree and forest resources.

Note: A tree is defined as any woody or fibrous perennial plant having a minimum trunk dbh" of three inches or greater or with an Over All Height (OAH) of twelve or more feet.

What about the trimming of trees?

Tree removal permits are not required for the selective pruning of trees, provided the pruning is done according to the most recent American National Standards Institute (ANSI) A300 Standard Practices for Tree Care Operations. However, excessive pruning (i.e. hat racking, topping, etc.) which results in the effective destruction of a tree constitutes a violation of Town Ordinance 12-151. Any other activity that can effectively destroy a tree, such as trunk girdling, excessive root cutting, or use of tree-killing chemicals, also violates the Ordinance.

Who administers the Town of Miami Lakes tree and forest protection program?

The Town of Miami Lakes Community and Leisure Services Department.

Who must apply for a tree removal permit?

The owner of the property upon which the tree removal work will occur must sign the tree removal permit. The owner may designate an agent to sign the application and permit by submitting a letter of authorization to the Town.

What types of tree and forest resources does the ordinance protect?

There are three categories of protected tree resources in Town of Miami Lakes: "Regular-size" trees (less than 18" dbh), "Specimen-size" trees (18" or greater dbh), and Natural Forest Communities which includes grasses, shrubs, and trees.

Will I be required to replant trees for the ones that I remove?

All "regular-sized" trees you remove -- except for the exempt or prohibited species -- must be replaced with an equal amount (100%) of tree canopy. "Specimen-sized" trees require double canopy replacement and payment to the Town Tree Trust equivalent to the costs of the specimen tree replacement requirements. This is accomplished by planting trees from the categories below:

Tree Replacement Chart

<u>Category Replacement Tree</u>	<u>Portion of Impact Area that each replacement Tree compensates for in sq.ft.</u>	<u>Min. size in feet</u>	<u>Town Trust Contribution</u>
Hardwood/Shade Tree 1	500	12' overall	\$1000 per tree
Hardwood/Shade Tree 2	300	8' overall	\$600 per tree
Palm Tree 1	300	10' clear trunk	\$600 per tree
Palm Tree 2	100	3' clear trunk	\$200 per tree
Small Tree	200	6' overall height	\$400 per tree

*Please note that you may be required to replant more than one type of tree.

What fees do I have to pay for a tree removal permit?

A non-refundable application fee (based on zoning) and initial inspection fee is required upon permit application submission. Additional fees may be charged at the time of permit issuance. See the fee schedule on Page 5.

What happens if I do not comply with the conditions and requirements of my tree removal permit or remove a tree or forest without a permit?

You may be issued a "Notice of Violation" and ordered to stop all land clearing and construction until you have complied with Town Ord. No. 12-151. Furthermore, you may be required to pay penalties for each violation and replace tree canopy.

How long will my tree removal permit be valid?

One year, but can be renewed by contacting the Town.

**dbh = (Diameter at Breast Height) trunk diameter measured at a point 4 1/2 ft. above ground*

Special Permits and Requirements

Tree removal permit applications involving a building permit must include the following items:

1. A completed tree removal application form along with non-refundable application and initial inspection fees.
2. Two copies of a site plan. This site plan must show all proposed site improvements, including driveway, septic tank, pool, tennis court, utility lines, sewer lines, setbacks and any accessory buildings.
3. At the discretion of the Town, a tree survey may be required. Please see the Town's *Tree Survey Guidelines and Specifications* for further information. Please be advised that the Town may require the property and area of proposed construction staked prior to inspection.
4. All permits require the full replacement of tree canopy. Town approval of a tree replacement or landscaping plan may be required prior to the issuance of this tree removal permit. Please read the tree replacement requirement section for details.

Tree removal permit applications involving new road construction or any improvement in road right-of-ways must include the following items:

1. A completed tree removal application form along with non-refundable application and initial inspection fees.
2. Two copies of the paving and drainage plan with the locations of all trees to be affected. Please be advised that the center line and/or limits of construction must be staked prior to inspection and subsequent permit issuance.
3. All permits require the full replacement of tree canopy. Town approval of a tree replacement plan or landscaping plan may be required prior to issuance of this tree removal permit.

Tree Replacement Requirements:

1. Tree canopy replacement will be required as a condition of every tree removal permit. Replacement Tree Plan forms are available upon request and may be used when the canopy impacted is less than 10,000 square feet. (See Canopy Credit Formulas on page 1)
2. When replacement tree canopy exceeds 10,000 square feet, a landscape plan must be submitted and approved by the Town prior to permit issuance. A performance bond is required for the cost of the canopy replacement. The bond must be submitted prior to permit issuance. The Department accepts letters of credit and certificates of deposits for the bond.

Exemptions & Prohibited Plant Species

No permits are required for the trees listed below unless the Trees are in a Natural Forest Community or a protected preserve such as EEL lands.

- For relocation only permits, there is no per tree(s) fee charged, only the application and inspection fees

- In order to renew/extend a permit, you will be required to pay the original application fee amount prior to the expiration of the current permit

- For permit and fee exemptions, please refer to Town tree protection ordinance no. 12-151

- **Please be advised that the application and the initial inspection fee are required upon permit application submission and are non-refundable if cancelled, withdrawn, or denied**

USE THIS TABLE TO CALCULATE YOUR TREE PLANTING REQUIREMENTS OF YOUR TREE REMOVAL PERMIT

Category Replacement Tree	Portion of Impact Area that each replacement Tree compensates for in sq.ft.	Min. size in feet
Hardwood/Shade Tree 1	500	12' overall
Hardwood/Shade Tree 2	300	8' overall
Palm Tree 1	300	10' clear trunk
Palm Tree 2	100	3' clear trunk
Small Tree	200	6' overall height

You may be required to replant more than one type of tree.

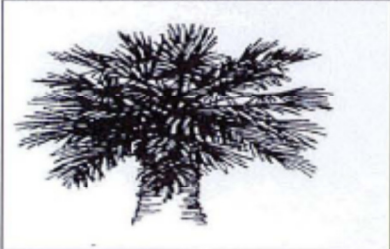

Overall height

Example:
 If you are requested to plant (See Replanting Requirements in your permit) 1,500 SQ.FT., you can plant:

- a) Three hardwood trees, 12' height each (you will get 1,500 SQ.FT.). Or,
- b) Two hardwood trees, 12' height each, and two palms, 10' clear trunk each (you will get 1,600 SQ.FT.). Or,
- c) Any combination of tree sizes up to the required credit.

PALMS CANNOT BE MORE THAN 30% OF THE TOTAL CANOPY AND FRUIT TREES WILL NOT COUNT TOWARDS MITIGATION.
