**3. Pledge of Allegiance:**

None.

**4. Public Comments:**

None.

**5. Items for Discussion:**

Public Works Engineer, Omar Santos presented the item and explained the project would be in the Southwest area of the town, by Barbara Goleman Senior High School and the West Lakes Community. It will be located along NW 146<sup>th</sup> street from NW 87<sup>th</sup> Avenue and terminating on NW 89<sup>th</sup> Avenue.

Mr. Rafael Lagos, Chief Engineer for the project explained in depth the two design options for this project. Mr. Lagos provided information on the number of lanes along with their width, sidewalks, median, and the bike path for both options regarding the NW 146<sup>th</sup> Street Project. Alternative #1 has a smaller median and the bike lanes on the north side of the street going westbound. Alternative #2 has a wider median to place bike lanes in the middle of the street as well as more landscaping.

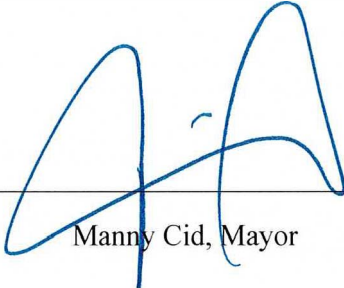

Through an operational study, it was determined that with either option, three lanes is sufficient and will accommodate traffic flow. Residents from the town then provided feedback on the project and gave input on which option they prefer for the area.

Public Works Director, Carlos Acosta and Public Works Engineer, Omar Santos answered questions posed by the attending public.

**6. Adjournment:**

This meeting was adjourned at 7:15 p.m.

Approved this 14<sup>th</sup> day of June 2022.
