Town of Miami Lakes Park Naming Policy

Purpose

The purpose of the policy is to establish consistent standard procedures and guidelines for naming of public park lands owned and/or operated by the Town of Miami Lakes.

Policy

The naming of Town parks, park areas and park facilities shall be the function of the Town Council.

Diversity, balance and creativity will be sought during adoption of names. The name selected for a site will be recommended to or by the Town Council for approval and amendment. The Town Council has final authority to approve or amend any recommendation.

Objectives

- A) Provide name identification for individual parks, park areas or park facilities.
- B) Provide criteria for process of naming parks, park areas or park facilities.
- C) Provide opportunities for public input including a public hearing at a Town Council Meeting.
- D) Ensure that the naming of parks, park areas or park facilities is controlled by the Town Council.

Criteria

The naming of parks, park areas and park facilities should be approached with caution, patience, and deliberation.

Names submitted for consideration should provide some form of individual identity in relation to the following:

- A) The geographic location of the facility; this includes descriptive names.
- B) An outstanding feature of the facility.
- C) An adjoining subdivision, street, school, or nature feature. No park shall be given the same name as an existing school site or public facility, except where the sites abut one another.
- D) A commonly recognized historical event, group, organization or individual (living or deceased).
- E) An individual or organization that contributed significantly to the acquisition or development of the facility to be named. This can include either a deed or substantial monetary contribution, or contribution toward acquisition and/or development of the park or park facility (typically not less than 50 percent of the value of the property or improvements).

- F) Outstanding accomplishments by an individual for the good of the community. Quality of the contribution should be considered along with the length of service by the individual – this to be fully substantiated by person making recommendation.
- G) Any individual who provided an exceptional service in the interest of the park system as a whole.

Donated Land

Parks and park facilities that are donated to the Town can be named by deed restriction by the donor. The naming and acceptance of land is subject to approval by the Town Council. Naming rights are not guaranteed if the donation of parkland is a dedication as required by the subdivision ordinance (parkland dedication).

Naming Process

The Community and Leisure Services Department will notify the Town Council about the proposed naming opportunities.

1) Permanent Naming

Citizen involvement in the naming process is encouraged and may be accomplished in a variety of ways throughout the naming process:

- A) Individuals, groups and/or organizations interested in proposing a name for an existing un-named park area or park facility may do so in writing using a “Park Naming Form” that outlines the naming criteria. These will be presented to the Community and Leisure Services Department for consideration by the Town Council.
- B) The Town Council will conduct a public hearing on the proposed names.
- C) The Town Council will approve and/or amend the naming.

2) Park Renaming

Critical examination will be conducted to ensure that renaming the park will not diminish the original justification for the name or the prior contributors. Renaming will follow the same procedures as naming the park.

- A) Only park and facilities named for geographic locations, outstanding feature or subdivision should be considered for renaming. Parks that have been named by deed restriction shall not be considered for renaming.
- B) Parks and facilities named after individuals shall not be changed unless it is found that because of the individual’s character the continued use of their name would not be in the best interest of the community.
