MEMORANDUM

TO: Diane O'Quinn Williams, Director

Alberto J. Torres

FROM: Acting Assistant Director for Zoning
Department of Planning and Zoning

DATE: August 3, 2001

SUBJECT: Miguel A. Otero
(V2001000123)
Administrative Variance
Miami Lakes

PURPOSE:

The above named applicant is seeking administrative approval, in accordance with Section 33-36.1 of the Code of Miami-Dade County, for variances of setback and lot coverage requirements to permit a proposed addition in connection with an existing single family residence.

REQUESTS:

1. Non-use variance of setback requirements to permit a covered terrace addition to an existing single family residence to setback 12.5' from the rear (north) property line where 25' is required.
2. Non-use variance of lot coverage requirements to permit a lot coverage of 39.3% where 35% is permitted.

LOCATION : 8735 N.W. 168 Street, Miami Lakes, Florida.

EXISTING ZONING: RU-1, Single-Family Residential District.

SIZE OF PROPERTY: 66.3' x 98'

IMPACT ON ADJACENT PROPERTIES:

The property is an interior lot in this single-family area, and all the surrounding properties are developed. Owners of the surrounding properties have signed the required waiver form.

Staff has no objections to the proposed variances, subject to a condition. The proposed covered terrace addition will provide shelter and shade and enhance the outdoor enjoyment of the residents. The setback variance will be similar to another variance of rear setback requirements which permitted a covered terrace addition on a parcel which is located approximately 150' to the north of the subject property. The total lot coverage which result from the construction of this covered terrace addition will only be 4.3%

EXHIBIT "A"

more than permitted by Code. The subject proposed addition will be adequately spaced from the rear yard area of the abutting residential parcel to the north and will be buffered from same by an existing 6' high wood fence which runs along the rear (north) property line of the subject property.

STAFF'S ANALYSIS:

Based upon the review of the plans for the proposed covered terrace addition, I find the following exists:

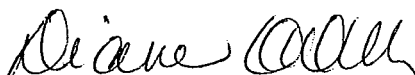

1. That the variances will be in harmony with the general appearance and character of the community.
2. That the variances will not be injurious to the area involved or otherwise detrimental to the public welfare.
3. That the proposed covered terrace addition is designed and arranged on the site in a manner that minimizes aural and visual impact on the adjacent residences while affording the applicant reasonable use of this land.

Additionally, staff feels that consideration for **approval** should be given of this request for an Administrative Variance, subject to the following condition:

That the covered terrace addition remain open-sided and not be enclosed in any manner except for approved insect screen materials.

DIRECTOR'S RECOMMENDATION

- Approved as requested.
- Approved subject to a condition stated above.
- Denied.
