B2 BID PROCESS

B2.01 GENERAL REQUIREMENTS FOR BID PROCESS

The ITB, Bid Form and any addendum that may be issued constitute the complete set of requirements for this ITB. The Bid Form page(s), and all forms contained in the ITB must be completed, signed, and submitted in accordance with the requirements of Section B. All Bids must be typewritten or filled in with pen and ink and must be signed in blue ink by an officer or employee having authority to bind the company or firm. Errors, corrections, or changes on any document must be initialed by the signatory of the Bid. Bidder will not be allowed to modify its Bid after the opening time and date.

(i) *Joint Venture or Teaming Agreements*

Joint venture firms or teaming agreements will not be considered for award under this ITB.

B2.02 PREPARATION OF BID

The Bid Form contains multiple line items, and the Bidder must provide prices for all line items and must provide the price for the total Bid amount. Failure to include pricing on all line items as well as the total Bid Amount will result in the Bid being found non-responsive.

Bidder must use the blank Town forms provided herein. The Bid must be signed and acknowledged by the Bidder in accordance with the directions within this ITB. Failure to utilize or fully complete the Town's forms may result in a determination that the Bid is non-responsive.

A Bid will be considered non-responsive if it is conditioned on modifications, changes, or revisions to the terms and conditions of the ITB.

All Bid prices are to include the furnishing of all labor, materials, equipment, all overhead/indirect expenses and profit, necessary for the completion of the Work, except as may be otherwise expressly provided for in the Contract Documents.

B2.03 ESTIMATED QUANTITIES

The quantities stated on the Bid Form are solely estimates of what the Town anticipates its needs are for the initial year of the Contract. The stated quantities do not reflect the actual quantities to be ordered and the Town has not established any minimum quantities and no guarantee is expressed or implied as to the total quantity of Work to be issued to a Contractor. The Town reserves the right, at its sole discretion, to make adjustment to the number and/or location of the Bid items. The failure of the Town to order any minimum quantities does not form any basis for a claim by the Contractor for lost work or profits.

B2.04 LINE-ITEM QUANTITIES

The estimated quantities will be used solely for bid comparison purposes for the Town to determine the lowest responsive and responsible. No guarantee is expressed or implied as to the total quantity of Work to be issued to a Contractor.

B2.05 ADDITIONAL LINE-ITEM PRICING

The Town reserves the right to request price quotes for additional items not contained in the initial award. Should the Town add any additional line items the Town will do so through the Change Order process.

B2.06 BID PREPARATION COSTS AND RELATED COSTS

All costs involved in the preparation and submission of a Bid to the Town, or any work performed in connection therewith is the sole responsibility of the Bidder(s). No payment will be made for

any Bid received, or for any other effort required of or made by the Bidder prior to commencement of Work as defined by any contract duly approved by the Town Council or Town Manager. The Town will bear no responsibility for any cost associated with any judicial proceedings resulting from the ITB process.

B2.07 QUALIFICATION OF BIDDERS

Bidder, by virtue of submitting its Bid, certifies that it is qualified and capable of performing the Work required under the Contract. To qualify for award, Bidder must meet the minimum qualification requirements stated in Section A. Bidders must complete the attached Questionnaire Form and include it with their Bid. Failure to complete and submit this form or to meet the minimum qualifications will result in the Bid being deemed non-responsive. The Town may at its sole discretion allow a Bidder to amend an incomplete Questionnaire during the evaluation process provided that the Bidder has included the Questionnaire in its Bid.

B2.08 EXAMINATION OF CONTRACT DOCUMENTS

It is the responsibility of each Bidder, before submitting a Bid in response to this ITB to:

- a. Carefully review the ITB, including any Addendum and notify the Town of any conflicts, errors, or discrepancies.
- b. Take into account federal, state and local, including, without limitation, the Town's Code, and Miami-Dade County and the State of Florida's statutes laws, rules, regulations, and ordinances that may affect a Bidder's ability to perform the Work.
- c. Study and carefully correlate Contractor's observations with the requirements of the ITB.

The submission of a Bid in response to this solicitation constitutes an incontrovertible representation by Bidder that it will comply with the requirements of the Contract Documents and that without exception, the Bid is premised upon performing and furnishing the Work required under the Contract Documents and that the Contract Documents are sufficient in detail to indicate and convey understanding of all terms and conditions for the performance of the Work.

B2.09 INTERPRETATIONS AND CLARIFICATIONS

All questions about the meaning or intent of the ITB must be directed in writing and submitted by e-mail to the Procurement Office, at procurement@miamilakes-fl.gov. Interpretation or clarifications considered necessary by the Town in response to such questions will be issued by means of an addendum. All addenda will be posted on the Town's website, Public Purchase, and DemandStar. It is the sole responsibility of the Bidder to obtain all addenda by visiting the Town's website. Written questions must be received no less than ten (10) days prior to bid opening. Only questions answered by written addenda will be binding. Verbal interpretation or clarifications will be without legal effect.

B2.10 POSTPONEMENT OF BID OPENING DATE

The Town reserves the right to postpone the date for receipt and opening of Bids and will make a reasonable effort to give at least five (5) calendar days' notice prior to the Bid opening date of any such postponement to prospective Bidders. Any such postponement will be announced through the issuance of an addendum posted to the Town's website.

B2.11 ACCEPTANCE OR REJECTION OF BIDS

The Town reserves the right to reject any and all Bids, with or without cause, to waive technical errors and informalities, or to cancel or re-issue this solicitation. The Town also reserves the right

to reject the Bid of any Bidder who has failed to previously perform under a contract or who is in arrears to the Town.

(i) *Unbalanced Bids*

The Town reserves the right to reject any Bid where the line item pricing is determined to be unbalanced. Such determination will be made at the sole discretion of the Town. An Unbalanced Bid price, which will be determined at the sole discretion of the Town, includes, but is not limited to, pricing that is not consistent with pricing in the industry or with market conditions and a comparison to the pricing submitted by other Bidders. An Unbalanced Bid typically occurs where the prices for one or more line items are too low a price to cover the actual cost to perform the Work (including overhead and profit) or too high a price where excessive profit will occur.

B2.12 WITHDRAWAL OF BID

The Bidder warrants, by virtue of bidding, that its Bid and the prices quoted in its Bid are firm and irrevocable for acceptance by the Town for a period of one hundred twenty (120) calendar days from the date of the Bid submittal deadline. Bidder may change or withdraw its Bid prior to the Bid submittal deadline. All changes or withdrawals must be made in writing to the Town Clerk. Oral/Verbal modifications will not be valid. Once the Town makes an Award, the Bid cannot be withdrawn.

B2.13 OPENING OF BIDS

Bids will be publicly opened at the appointed time and place stated in the ITB and the names of the Bidders will be announced. The Town, at its sole option, may read the Bid prices. Late Bids will not be opened. Town staff is not responsible for the premature opening of a Bid if the Bid is not properly sealed, addressed and labeled. Bidders or their authorized agents are invited to be present at the Bid opening. Any additional information on the Bid Submittals will be made available in accordance with Florida Statute 119.071, Paragraph (b) of subsection (1), item 2, as amended. Review of the Bid Submittals by Town staff will determine the lowest responsive and responsible Bidder(s).

B2.14 LOCAL PREFERENCE

This ITB is subject to local preference under Section 13 of Town Ordinance 17-203. In order to qualify, Bidders seeking preference must submit the Local Vendor Preference Certification Form with all required supporting documentation. The Local Vendor Preference Certification Form can be found on the Town's website at <http://www.miamilakes-fl.gov>.

B2.15 TIE BIDS

Preference shall be given to businesses with Drug-Free Workplace programs. Whenever two (2) or more bids which are equal in price, the Award will be determined in accordance with Florida Statute 287.133(2)(a), the Drug-Free Workplace Act. Where tie Bids still exist, the Award will be made to one of the Bidders at the sole discretion of the Town Manager.

B2.16 AWARD OF CONTRACT(S)

The Town anticipates awarding a contract to the lowest responsive and responsible Bidder(s) that is in the best interest of the Town.

The Town may require demonstration of competency and, at its sole discretion, conduct site visit(s) and inspections of the Bidder's place of business, require the Bidder to furnish documentation or require the Bidder to attend a meeting to determine the Bidder's qualifications and ability to meet the terms and conditions of this Contract. The Town will consider, but not be

limited to, such factors as financial capability, labor force, equipment, experience, knowledge of the trade work to be performed, the quantity of Work being performed by the Contractor and past performance on Town and other contracts. In no case will the Award be made until all necessary investigations have been made into the responsibility of the Bidder and the Town is satisfied that the Bidder(s) is qualified to perform the Work.

B2.17 BID PROTEST PROCESS

Any Bidder wishing to file a protest as to the requirements or award of this ITB must do so in accordance with Town Ordinance 12-142, Section 16, which is available at <http://www.miamilakes-fl.gov>.

B2.18 EXECUTION OF CONTRACT

The Successful Bidder must, within fourteen (14) calendar days after receiving a Notice of Award, sign and deliver to the Town the Contract Execution and Certificate of Authority forms found in Section H, together with the acceptable bonds as required in Article B2.20, Performance & Payment Bonds, below.

B2.19 PERFORMANCE & PAYMENT BONDS

The Successful Bidder must, within fourteen (14) calendar days after receiving a Notice of Award, submit a performance and payment bond ("Bond") using the attached Performance Bond forms in the amount of \$100,000. The Bond will guarantee the completion of the Work covered by the Contract Documents as well as the payment of all suppliers, Subcontractors, and the Contractor's workforce. The Bond(s) shall not contain a provision allowing the Surety(ies) to cancel the Bonds prior to the completion of the Contract, including the option to renew years.

The Bond must be executed by a surety company of recognized standing, authorized to do business in the State of Florida as a surety.

B3 REQUIRED FORMS & AFFIDAVITS

B3.01 COLLUSION

Where two (2) or more related parties, as defined in this Article, each submit a response to an ITB, such submissions will be presumed to be collusive. The foregoing presumption may be rebutted by the presentation of evidence as to the extent of ownership, control, and management of such related parties in preparation and submission under such ITB. Related parties means employees, officers or the principals thereof which have a direct or indirect ownership interest in another firm or in which a parent company or the principals thereof of one Bidder have a direct or indirect ownership interest in another Bidder for the same project. ITB responses found to be collusive will be rejected. Bids must be developed independently. Where two or more Bidders have worked together, discussed the details of their bids prior to submission of their Bids or worked together in independently submitting Bids such actions will be deemed to be collusion.

B3.02 RELATIONSHIPS WITH THE TOWN AFFIDAVIT

The Bidder must identify any relationship the owners or employees have with the Town's elected officials or staff using the Relationships with the Town affidavit found in Section H, Required Attachments.

B3.03 CONFLICT OF INTEREST/ANTI-KICKBACK

Bidder must complete and submit the Conflict of Interest, Anti-Kickback and Proposer's Relationships to the Town Affidavits found in Section H, Required Attachments, in its Bid. Bidder certifies that its Bid is made independently of any assistance or participation from any Town employee, elected official, or contractor working for or on behalf of the Town, who assisted in

any aspect with the development, evaluation, or award if this or any solicitation issued by the Town.

Town employees may not contract with the Town through any corporation, or business entity in which they or their immediate family members hold a controlling financial interest (e.g., ownership of five (5) percent or more). Immediate family members, including spouse, parents, and children are also prohibited from contracting with the Town without the prior approval of the Town Council.

Miami-Dade County Ordinance 2-11.1, Conflict of Interest & Code of Ethics ordinance or the provisions of Chapter 112, Part III, Fla. Stat., Code of Ethics for Public Officers, and Employees, as applicable and as amended are hereby included into and made a part of this solicitation.

B3.04 PUBLIC RECORDS AFFIDAVIT

The Town shall comply with the Public Records Law as provided by Chapter 119, Florida Statutes, and all applicable amendments. Applicants must invoke the exemptions to disclosure provided by law in the response to the solicitation and must identify the data or other materials to be protected by separate envelope and must state the reasons why such exclusion from public disclosure is necessary. The submission of a response authorizes release of your firm's credit data to the Town.

All prospective Bidders must complete and submit the Compliance with Public Records Law affidavit with their Bid. Failure to submit the completed affidavit may result in the Bid being deemed non-responsive. Bidders, by submitting the Compliance with Public Records Law affidavit, specifically acknowledge their obligation to comply with Section 119.0701, Florida Statutes.

B3.05 PUBLIC ENTITY CRIMES ACT

In accordance with the Public Entity Crimes Act, (Section 287.133, Florida Statutes) a person or affiliate who is a contractor, who had been placed on the convicted vendor list following a conviction for a public entity crime may not submit a bid on a contract to provide any goods or services to the Town, may not submit a bid on a contract with a public entity for the construction or repair of a public building or public work, may not submit bids on leases or real property to the Town, may not be awarded or perform work as a contractor, supplier, subcontractor, or consultant under a contract with any public entity, and may not transact business with the Town in excess of the threshold amount provided in Section 287.917, Florida Statutes, for Category Two for a period of 36 months from the date of being placed on the convicted vendor list. Violation of this section by the Contractor will result in rejection of the Bid, termination of the contract, and may cause Contractor debarment.

The apparent silence of the Contract Documents as to any detail, or the apparent omission from them of a detailed description concerning any Work to be done and materials to be furnished, will be regarded as meaning that only best practices are to prevail and only materials and workmanship of the best quality are to be used in the performance of the Work.

The Town reserves the right to order changes which may result in additions to or reductions from the amount, type or value of the Work shown in the Contract, and which are within the general scope of the Contract Documents, and all such changes will be authorized only by a Change Order approved in advance and issued in accordance with provisions of the Town.

The Contractor is required to provide the Project Manager with a detailed Change Proposal Request ("CPR") or Request for Change Order ("RCO"), utilizing the Town's standard form, which must include requested revisions to the Contract, including but not limited to adjustments in this Contract Price and Contract Time. The Contractor is required to provide sufficient data in support of the cost proposal demonstrating its reasonableness. The final amount to be paid to the Contractor for Change Order Work is subject to negotiation between the Town and the Contractor.

Failure by the Contractor to proceed with Change Order Work when so directed by the Town Manager or designee may result in the Contractor being found in default of the Contract.

Contractor must utilize the Town's standard requests for change orders and change order forms unless otherwise specifically approved by the Town's Procurement Manager. The Town's Forms are available on the Town's website.

Should any failure to perform on the part of Contractor be due to a condition of Force Majeure as that term is interpreted under Florida law, then, the Town may allow an extension of time reasonably commensurate with the cause of such failure to perform or cure.

2. The Contractor demonstrates that the completion of the Work will be actually and necessarily delayed;
3. The effect of such cause cannot be avoided or mitigated by the exercise of all reasonable precautions, efforts and measures whether before or after the occurrence of the cause of delay.

A delay meeting all the conditions of the above will be deemed an Excusable Delay.

The Town reserves the right to rescind or shorten any extension previously granted if subsequently, the Project Manager determines that any information provided by the Contractor in support of a request for an extension of time was erroneous; provided however, that such information or facts, if known, would have resulted in a denial of the request for an Excusable Delay. Notwithstanding the above, the Project Manager will not rescind or shorten any extension previously granted if the Contractor acted in reliance upon the granting of such extension and such extension was based on information which, although later found to have been erroneous, was submitted in good faith by the Contractor.

The request for an Excusable Delay must be made within five (5) calendar days after the time when the Contractor knows or should have known of any cause for a specific event, for which it may claim an extension of time and must provide any actual or potential basis for an extension of time, identifying such causes and describing, as fully as practicable at that time, the nature and expected duration of the delay and its effect on the completion of that part of the Work identified in the request. The Project Manager may require the Contractor to furnish such additional information or documentation, as the Project Manager will reasonably deem necessary or helpful in considering the requested extension.

The Contractor will not be entitled to an extension of time unless the Contractor affirmatively demonstrates that it is entitled to such extension.

The Project Manager will endeavor to review and respond to the Contractor's request for Excusable Delays in a reasonable period of time; however, the Contractor is obligated to continue to perform the Work required regardless of whether the Project Manager has issued a decision or whether the Contractor agrees or disagrees with that decision.

With regard to an injunction, strike or interference of public origin which may delay the Project, the Contractor must promptly give the Project Manager a copy of the injunction or other orders and copies of the papers upon which the same was granted. The Town must be afforded the right to intervene and become a party to any suit or proceeding in which any such injunction has been obtained and move to dissolve the same or otherwise, as the Town may deem proper.

Where the Contractor is delayed for any period of time by two or more of the causes mentioned in Article C4.04, Excusable Delay, Non-Compensable, the Contractor will not be entitled to a separate extension for each one of the causes, only one period of extension will be granted for the delay.

Any extension of time granted by the Town will be processed through the Change Order provisions of the Contract.

The permitting of the Contractor to proceed with the Work subsequent to the date specified in the Contract (as such date may have been extended by a change order), the making of any payment to the Contractor, the issuance of any Change Order, will not waive the Town's rights under the Contract, including but not limited to the assessment of liquidated damages or declaring Contractor in default.

C4.04 EXCUSABLE DELAY, NON-COMPENSABLE

Excusable Delay is delay caused by either of the following: (i) circumstances that could not be foreseen and are beyond the reasonable control of Contractor, its subcontractors, or suppliers; or (ii) joint or concurrent action by Contractor, its subcontractors, suppliers or vendors and the Town. Then Contractor will be entitled only to a time extension and no compensation for the delay.

Contractor is entitled to a time extension of the Contract time for each day the Work is delayed due to Excusable Delay. Contractor must document its claim for any time extension as provided in Article C4.05.

Failure of Contractor to comply with Article C4.05, as to any particular event of delay will be deemed conclusively to constitute a waiver, abandonment or relinquishment of any and all claims resulting from that particular event of delay.

C4.05 CLAIMS

Contractor will only be entitled to submit a claim after submitting its request for additional compensation or time in accordance with Articles C4.03 and C4.04 of the Contract and the request(s) have been denied or the Contractor does not agree with the decision of the Town.

Any claim for a change in the Contract time for completion of any Work, the Contract Term, or Contract price must be made by written notice by Contractor to the Town representatives identified in Article C1.26 within the timeframe established in Article C4.04, effective with the commencement of the event giving rise to the claim stating the general nature and cause of the claim. Thereafter, within twenty (20) calendar days of the termination of the event giving rise to the claim, written notice of the extent of the claim with supporting information and documentation must be provided unless the Procurement Manager allows an additional period of time to ascertain more accurate data in support of the claim. The written notice must be accompanied by Contractor's written notarized statement that the adjustment(s) claimed is the entire adjustment to which the Contractor has reason to believe it is entitled as a result of the occurrence of said event. All claims and disputes will be determined in accordance with the Contract. It is expressly and specifically agreed that any and all claims for changes to the Contract will be waived if not submitted in strict accordance with the requirements of this Article.

The Town may require the Contractor to submit its claim utilizing a specific format or forms to facilitate the Town's evaluation of the claim. The Town at its sole discretion may require that additional documentation or information be provided by the Contractor to assist in its review and evaluation of the claim.

The Contract time will be extended in an amount equal to time lost on critical Work items due to delays beyond the control of and through no fault or negligence of Contractor if a claim is made as provided in this Article. Such delays include, but are not to be limited to, acts or neglect by any separate contractor employed by Town, fires, floods, labor disputes beyond the control of the Contractor, epidemics, abnormal weather conditions (if applicable), or acts of God.

The Contractor will not be entitled to an increase in the Contract price or payment or compensation of any kind from the Town for direct, indirect, consequential, impact or other costs, expenses or damages, including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference or hindrance from any cause whatsoever, whether such delay, disruption, interference or hindrance be it reasonable or unreasonable, foreseeable or unforeseeable, avoidable or unavoidable. Contractor will only be entitled to an extension of the Contract Time for completion of the Work, as the sole and exclusive remedy for such resulting excusable delay.

The Contractor agrees to make no claim for damages for delay of any kind in the performance of the Contract Documents whether occasioned by any act or omission of the Town or any of its representatives and the Contractor agrees that any such claim will be compensated solely by an extension of time to complete performance of the Work due to an Excusable Delay as defined in Articles C4.03, and Article C4.04. The Contractor alone specifically assumes the risk of such delays, including, without limitation: delays in processing or approving any submittals to the Town or by the Town, or the failure to render determinations, approvals, replies, inspections, in a timely manner. Contractor will not receive monetary compensation for Town delay(s).

Failure of Contractor to comply with this Article as to any particular event of claim will be deemed conclusively to constitute a waiver of any and all claims resulting from that particular event.

C4.06 CONTINUING THE WORK

Contractor must continue to perform all Work under the Contract Documents during all disputes or disagreements with Town, including disputes or disagreements concerning a request for a Change Order and no Work must not be delayed or postponed pending resolution of any disputes or disagreements.

C4.07 FRAUD AND MISREPRESENTATION

The Town may terminate this Contract or any other contracts with the Town with any person, individual, corporation, entity, or affiliate that attempts to meet its contractual obligations with the Town through fraud, misrepresentation, or material misstatement. Such person, individual, corporation, entity, or affiliate will be responsible for all direct or indirect costs associated with termination or cancellation.

C4.08 STOP WORK ORDER

The Town may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the Work for a period of up to ninety (90) days (or any lesser period), commencing no sooner than the date the order is delivered to the Contractor, and for any further period to which the parties may agree. Any such order will be specifically identified as a "Stop Work Order" issued pursuant to this paragraph. Within the period of ninety (90) days (or the lesser period specified) after a Stop Work Order is delivered to the Contractor, or within any extension to which the parties have agreed the Town will either:

1. Cancel the Stop Work Order; or
2. Terminate the Work covered by such order as provided in Article C5.03, Termination for Convenience.

If a Stop Work Order issued under this Article is canceled or the period of the order or any extension thereof expires, the Contractor must resume the Work without compensation to the Contractor for such suspension other than extending the time to complete any Work under the Contract or extending the Contract Term to the extent that, in the opinion of the Project Manager, the Contractor may have been delayed by such suspension. In the event the Project Manger determines that the suspension of Work was necessary due to Contractor's defective or incorrect Work, unsafe Work conditions caused by the Contractor, or any other reason caused by Contractor's fault or omission, the Contractor will not be entitled to an extension of time or Contract Term or (Time) as a result of the issuance of a Stop Work Order.

Suspension of the Work caused by a threatened or actual storm event, regardless of whether the Town has directed such suspension, will entitle the Contractor to additional Contract time as non-compensable, Excusable Delay, and will not give rise to a claim for compensable delay.

C4.09 MATERIALITY AND WAIVER OF BREACH

Town and Contractor agree that each requirement, duty, and obligation set forth in the Contract Documents is substantial and important to the formation of the Contract Documents and, therefore, is a material term hereof. The Town's failure to enforce any provision of the Contract Documents will not be deemed a waiver of such provision or modification of the Contract Documents. A waiver of any breach of a provision of the Contract Documents will not be deemed a waiver of any subsequent breach and will not be construed to be a modification of the terms of the Contract Documents.

C4.10 TIME IN WHICH TO BRING ACTION AGAINST THE TOWN

In the event the Contractor may be deemed to have a cause of action against the Town, no action will lie or be maintained by the Contractor against the Town upon any claim arising out of or based upon the Contract Documents by reason of any act or omission or requirement of the Town or its agents, unless such action is commenced within six (6) months after the date of issuance of a final payment under the Contract, or if the Contract is terminated under the provisions of the Contract, unless such action is commenced within six (6) months after the date of such termination by the Town.

C4.11 CONTRACT EXTENSION

The Town reserves the right to extend the Contract for up to ninety (90) calendar days beyond the original Contract period, inclusive of any Options to Renew exercised by the Town. In such event, the Town will notify the Contractor in writing of such extensions.

C4.12 HURRICANE PREPAREDNESS

During such periods of time as are designated by the National Weather Service as being a hurricane warning, the Contractor, at no cost to the Town, must take all precautions necessary to secure any Work in response to all threatened storm events, regardless of whether the Contractor has given notice of same.

Compliance with any specific hurricane warning or alert precautions will not constitute additional work.

Suspension of the Work caused by a threatened or actual storm event, regardless of whether the Town has directed such suspension, will entitle the Contractor to additional Contract time as non-compensable, Excusable Delay, and will not give rise to a claim for compensable delay.

C4.13 CLEANING UP; TOWN'S RIGHT TO CLEAN UP

Contractor must, at all times, keep the Work site(s) free from accumulation of excess materials, waste materials or rubbish caused by its operations. At the completion of Work at the Work site(s), Contractor must remove all its excess materials, waste materials and rubbish from and about the Project(s) as well as any tools, equipment, machinery and surplus materials or supplies. If Contractor fails to clean up during the performance of the Work or at the completion of the Work, Town may do so, and the cost incurred will be charged to the Contractor. Any combustible waste materials must be removed from the Work site(s) at the end of each day.

Should the Contractor leave any open trenches at any time that Work is not being performed, the Town may have the open trenches covered and deduct any cost incurred from any outstanding payments due or to become due to the Contractor. The Town may also invoice the Contractor for all costs incurred in mitigating any open trenches."

C5 EARLY TERMINATION & DEFAULT

C5.01 SET-OFFS, WITHOLDING, AND DEDUCTIONS

b. Notice of Default – Opportunity to Cure

The Town is under no obligation to issue such notification. The Town may grant an extension to the cure period if the Town deems it appropriate and in the best interest of the Town, without waiver of any of the Town's rights hereunder. The Town, at its sole discretion, may have a default corrected by its own forces or another contractor and any such costs incurred will be deducted from any sums due the Contractor under any contract with the Town.

The Town Manager or designee may also suspend any payment or part thereof or order a Work stoppage until such time as the issue(s) concerning compliance are resolved.

c. *Termination for Default*

Where a Default is not cured within the time specified to cure the Default, the Town Manager in addition to all remedies available by law, may immediately, upon written notice to Contractor, terminate this Contract. Contractor understands and agrees that termination of this Contract under this Article will not release Contractor from any obligation accruing prior to the effective date of termination.

In the event of termination by the Town Manager or designee, the Town Manager or designee may immediately take possession of all applicable documentation and data, material, equipment, and supplies to which it is entitled to under the Contract or by law.

Where the Town erroneously terminates the Contract for default, the terminations will be converted to a Termination for Convenience, and the Contractor will have no further recourse of any nature for wrongful termination.

6. All documents, including electronic documents, related to Work authorized under the Contract, whether finished or not, must be turned over to the Town. Failure to timely deliver the documentation will be cause to withhold any payments due without recourse by Contractor until all documentation is delivered to the Town.

In the event that the Town exercises its right to terminate the Contract pursuant to the Contract Documents, the Town will pay the Contractor for the actual cost, or the fair and reasonable value, as substantiated by invoice documentation, of any non-cancelable material(s) and equipment that cannot be used elsewhere by the Contractor in the performance of its work.

In no event, will any payments under this Paragraph exceed the maximum cost set forth in the Contract and the amount due hereunder may be offset by payments made to the Contractor or any claims made against the Contractor. Contractor will not be entitled to lost profits, overhead or consequential damages as a result of a Termination for Convenience.

C5.04 REMEDIES AVAILABLE TO THE TOWN

The Town may avail itself of each and every remedy stated in the Contract Documents or existing at law or in equity. The exercise or the beginning of the exercise of one remedy will not be deemed a waiver of the right to exercise, at the same time or thereafter, of any other remedy.

Contractor is responsible for paying its Subcontractors and suppliers in accordance with the Florida Local Government Prompt Payment Act.

The Contractor will be compensated based on actual Work performed at the prices specified in the Contract.

The acceptance of final payment for a Project constitutes a waiver of all claims by Contractor related to that Project, except those previously made in strict accordance with the provisions of the Contract and identified by Contractor as unsettled at the time of the application for payment.

C6.02 ESTIMATED QUANTITIES

The stated quantities do not reflect the actual quantities to be ordered and the Town has not established any minimum quantities and no guarantee is expressed or implied as to the total quantity of Work to be issued to a Contractor. The Town reserves the right, at its sole discretion, to make adjustment to the number and/or location of the Bid items. The failure of the Town to order any minimum quantities does not form any basis for a claim by the Contractor for lost work or profits.

C6.03 LINE-ITEM PRICING

Line-item pricing must include all costs, both direct and indirect to perform the Work except for those costs specifically identified as reimbursable costs as stated in Article B9.06. This includes any incidental costs associated with the Work not specifically stated, i.e., the installation of drainage may require backfill and patching, whether permanent or temporary.

Contractor must notify the Town's representative at least forty-eight (48) hours prior to the delivery of any Trees. The Town representative will make the arrangement for the inspection and notify the Contractor in writing of the time and date.

Based on the substantial completion inspection, the Town will determine. (1) the Work meets all of the Contract Documents requirements and should be inspected, or (2) Work does not meet all of the requirements of the Contract Documents and requires corrective action.

The Town and the Contractor will determine a timeframe for completion of all of the corrective Work. Upon completion of the punch list the Contractor will request that another substantial completion inspection be conducted. D19 PROJECT SITE MAINTENANCE

In addition to the requirements of Article C4.13 and D17 the Contractor will be responsible for the disposal of all waste and other objectionable material created through planting operations and landscape construction, which must be removed completely on a daily basis from the Work site(s) or as directed by the Town. Any paved areas including curbs and sidewalks which have been strewn with soil, sod waste, fertilizer or other waste must be thoroughly swept. The Town is not required to supply areas or facilities for storage or removal of waste on-site.

All excess fill must be removed and disposed of from the Work site(s) at no additional cost to the Town. SECTION E. SPECIFICATIONS

E1 TREE PLANTING

E1.01 GENERAL

- a. The Work includes, but is not limited to, furnishing material, root pruning and Tree relocations where required, layout, requesting utility locations/markings, protection to the public, maintenance of traffic, excavation, installation, backfilling, fertilizing, mulching, staking, and guying where required, watering, pruning, weeding, mowing, cleanup, maintenance and warranty.
- b. Excavation Related to Inadequate Drainage: Some or all Work areas may contain existing materials such as, but not limited to, concrete, peat layer, limerock, and it may even be compacted. This material and any compacted material may interfere with adequate vertical drainage or proper Tree survival and growth. Removal of this material, in order to have adequate vertical drainage, is part of the Work. Therefore, the subsurface investigations and examinations are necessary in order to determine the extent of removal and excavation required above and beyond the minimum requirements indicated in these specifications, under the heading of "Excavation of Tree Holes", which is in Section E1.14. Compensation for any removal and excavation required above and beyond the minimum requirements indicated, including any additional planting soil needed in order to fill the larger excavated area, are included in the Bid Prices. The Contractor will not be entitled to additional compensation for this Work.

E1.02 CERTIFIED ARBORIST

All Tree planting, removal, or relocations must be performed under the direction and supervision of an International Society of Arboriculture ("ISA") certified arborist ("Arborist"). The Contractor must make the Arborist available for Tree health inspections and Tree maintenance recommendations when requested by the Town.

E1.03 QUALITY ASSURANCE

- a. Standards
 1. Authority for Nomenclature, Species, Etc.
 - i. All Trees must conform to the names given in "Standardized Tree Names," 1942 edition, prepared by the American Joint Committee on Horticultural Nomenclature and in the current edition of Index of Garden Plants: The New Royal Horticultural Society Dictionary. Names of varieties not included therein conform generally with names accepted in the South Florida nursery trade.
 2. Grade Standards
 - i. All Trees must be nursery grown and must comply with all required inspections, grading standards and Tree regulations as set forth in the latest edition of the Florida Department of Agriculture's "Grades and Standards for Nursery Plants, Part 1 and Part 2", the specification as described in the American Standard of Nursery Stock, ANSI Z60.1, Current Edition or with any superseding specifications that may be called for on the plans or in the specifications and as established by the Turfgrass Producers Association of Florida, Inc. All Trees not listed in the "Grades and Standards for Nursery Plants," must conform to a Florida No. 1 as to: (1) health and vitality, (2) condition of foliage, (3) root system, (4) freedom from pest or mechanical damage, and (5) heavily branched and densely foliated according to the accepted normal shape of the species or sport.
 - ii. Exception to "Grades and Standards": Any section of Florida Department of Agriculture's "Grades and Standards" which allows nails or spikes in the trunks of

Trees or palms are excluded from these specifications. These specifications prohibit nails and spikes in trunks.

- iii. All Trees and related materials must be free of noxious weeds both above and below ground, including nut grass.
3. Requirements for Various Tree Designations
 - i. Balled and Burlapped (B&B) and Wire Balled and Burlapped (WB&B) Trees
 - Only burlap and other wrapping materials made of natural, biodegradable materials must be used.
 - These Trees must be properly protected until they are planted. The Tree must be handled only by both the trunk and rootball at the same time and not by the trunk only. Any B&B or WB&B Tree which shows evidence of having been handled by a method other than the method outlined above and resulting in damage to the Tree such as a cracked or broken rootball or the roots that have been loosened within the ball, will be rejected.
 - For Trees grown in soil of a loose texture, which does not readily adhere to the root system, especially in the case of large Tree material, wired B&B Trees must be used. For WB&B Trees, before the Tree is removed from the hole, hog wire with approximately 1- to 1½-inch openings or a Kerr's wire basket (Vermeer standard, caretree standard, caretree truncated or clegg) must be placed around the burlapped ball and looped and tensioned until the burlapped ball is substantially packaged by the tightened wire netting, such as to prevent disturbing of the loose soil around the roots during handling.
 - b. Container-Grown Trees (CG):
 1. It is preferable that all Trees under this Contract be field grown. In the instance that requested a Tree is not available as field grown, Container-Grown (CG) Trees may be used subject to the approval of the Town. Any Container-Grown (CG) Trees which have become "pot bound" or "root bound" for which the top system is out of proportion (larger) to the size of the container, will not be accepted.
 2. CG Trees must not be removed from the can until immediately before planting and with all due care to prevent damage to the root system.
 - c. Specimen Trees (Florida Fancy):
 1. When specimen or Florida Fancy Trees are called for, they will be labeled as such on the plans.

E1.04 TREES

- a. All Trees must be no less than Florida No. 1 or better, at the time of installation and final acceptance.
- b. Habit of Growth: All Trees must have a habit of growth that is normal for that species and must be sound, healthy, vigorous, and free from insects, Tree diseases and injuries.
- c. All Trees must be planted in accordance with ANSI A300 (Part 6), Planting and Transplanting Standards.
- d. Measurement of Trees & Ground Cover
 1. Trees and Ground Cover
 - i. Rootball: Requirements for the measurement of rootball diameter and depth must comply with requirements as set forth in the latest edition of the Florida Department of Agriculture's "Grades and Standards for Nursery Plants, Part 1 and Part 2" and as listed herein.

1" – 1.5"	16"	75% of diameter
1.5" – 1.75"	20"	65% of diameter
1.75" – 2"	22"	65% of diameter
2" – 2.5"	24"	65% of diameter
2.5" – 3.5"	26"	65% of diameter
3.5" – 4"	28"	65% of diameter
4" – 4.5"	30"	60% of diameter
4.5" – 5"	32"	60% of diameter
5" – 5.5"	34"	60% of diameter
5.5" or more	Increase in proportion	Up to 48", then decrease in proportion for larger size diameter

- ii. Height: The height of the Tree will be measured from finish grade and continue up to where the main mass of the Tree uniformly ends. The height must not include any singular or isolated parts of the Tree, such as leaves, shoots, branches, limbs, or fronds, which extend out beyond the main mass of the Tree.
 - iii. Width: The width of the Tree must be measured from one side of where the main mass uniformly ends and continue to the other side of where the main mass of the Tree uniformly ends. The width must not include any singular or isolated parts of the Tree, such as leaves, shoots, branches, limbs, or fronds, which extend out beyond the main mass of the Tree.
 - iv. Caliper: Trunk caliper (trunk diameter) is measured six (6) inches from the ground on trees up to and including four (4) inches in caliper and twelve (12) inches above the ground for larger trees.
- e. All sizes shown for Trees available as part of this Contract are to be considered as minimums. All Trees must meet or exceed these minimum requirements for height, spread, etc. as indicated on the plans. When Tree sizes are specified as a range of size, installed material must average the mean of the range specified.
 - f. Die-Back and Leaf-Drop: Tree showing signs of die-back or leaf-drop will not be accepted and must be removed from the project immediately if so directed by the Town. Therefore, any Trees with tendencies toward leaf-drop or die-back must be root pruned early enough to provide a sound network of hair roots prior to relocation.
 - g. Mechanical Destruction of Foliage: Mechanical destruction of foliage resulting from root pruning must not affect more than 10% of the total foliage prior to planting under a Work Order. Loss of foliage caused by seasonal change will be accepted.
 - h. Spanish Moss: If Spanish Moss (*Tillandsia Useoides*) exists on Trees, it must be completely removed prior to planting.
 - i. Trees will not be accepted when the ball of earth surrounding its roots has been cracked, broken or otherwise damaged.
 - j. Root pruning of Trees, when required by the Town, must be done a minimum of six (6) weeks or for a period as determined by the Town, prior to planting. Prior to root pruning, the Contractor must give 48-hour advance notice to the Town advising of the date to root prune any Tree. This will allow for any inspections during or after the root pruning, if necessary.

E1.05 TRANSPORTING AND HANDLING OF PALMS, TREES, AND CONTAINER MATERIALS

It must contain three (3) to five (5) percent decomposed organic matter and must be free from heavy clay, coarse sand, stones, lime, lumps, plants, roots or other foreign materials, or noxious weeds. It must not contain toxic substances, which may be harmful to Tree growth. Provide soil from ground that has never been stripped, with a slight acid reaction (5.0 to 7.0 pH) and without an excess of calcium or carbonate, delivered in a friable condition. - b. Tree Areas Next to Pavement: All planting areas next to or in pavement areas, such as, but not limited to, curbs, roads drives, walks, terraces, decks and slabs must be set so that the top of the mulch is one-inch (1") below the top of the pavement area or as indicated otherwise in the Work Order, that may include plans, drawings or sketches, and the top of sod is one-inch (1") below top of pavement area, measured from the top of pavement to the top of grass blades after mowing. See note G10.

E1.13 HERBICIDE TREATMENT

In all areas infected with weed or grass growth, a systemic herbicide, such as "Roundup", must be applied per manufacturer's rates. When it has been established where work will be done, the systemic herbicide

must be applied in accordance with manufacturer's labeling to kill all noxious growth. Contractor must schedule its Work to allow more than one application to obtain at least 98% kill of undesirable growth. Once the existing vegetation is dead, excavate and haul to a legal dumpsite the vegetation and the top two-inches (2") of existing soil/sand. The Contractor must exercise extreme care to prevent damage to desirable existing growth. If necessary, the Contractor must conduct a test to establish suitability of product and applicator to be used on this project, prior to execution of the full application.

Upon the request of the Program Manager, the Contractor must provide a schedule for herbicide treatment.

E1.14 PREPARATION

- a. Utility Locates: Contractor must contact Sunshine State One Call at 811 to ensure that utility locates are performed before any digging is commenced by the Contractor.
- b. Staking Tree Locations: Stake or mark Tree locations prior to Tree hole excavation, based on information from the plans.
- c. Contractor should reference 2015 FDOT Design Standards when preparing a site for planting, unless otherwise directed by the Town.
- d. Sub-surface Conditions: Some or all work areas may be compacted or contain existing material such as limerock which may interfere with adequate vertical drainage and/or proper Tree survival and growth and therefore removal of this material is part of the scope of work for the project. The Contractor is responsible for ensuring adequate drainage in these areas and must remove this existing material, as required, by such means as augering, drilling or rototilling. Therefore, the Contractor will be required to perform additional excavation on the holes for all Trees. This additional excavation must be to a depth beyond the required excavation depth indicated below for the holes, in order to insure proper vertical drainage necessary for plan survival and growth.
- e. The Contractor must remove all existing concrete, asphalt concrete and rocks over four inches in diameter, above and below grade in planting pits, from areas to be landscaped.
- f. Excavation of Tree Holes
 1. General
 - i. Excavation of Tree holes must be roughly cylindrical in shape with the sides approximately vertical. The Town reserves the right to adjust the size and shape of the Tree hole and the location of the Tree in the hole to compensate for unanticipated structures or unanticipated factors which are a conflict.
 - ii. The excess excavated material from the Tree holes must not be used to backfill around the Tree. Such material must be disposed of offsite at the expense of the Contractor.
 - iii. Contractor must remove any existing roots that may impact the planting of a new Tree.
 2. Trees
 - i. Depth of hole must be equal to the rootball depth plus eight (8") inches, unless further depth is required to provide adequate drainage as per Section E1.01 and this Article.

E1.15 INSTALLATION

- A. Setting of Trees
 1. Trees must be planted at their natural and original planting level prior to their placement on this project. When lowered into the hole, the Trees must rest on the prepared hole bottom such that the surface roots at the top of the rootball are level or slightly below the level of the surrounding final grade after settlement. The practice of plunging, burying, or planting any Tree such that the surface roots at the top of the rootball are below the level of the surrounding final grade will not be permitted unless it is indicated otherwise in these

- specifications, details or it is approved in writing by the Town prior to such action being taken. The Trees must be set straight or plumb or normal to the relationship of their growth prior to transplanting. The Town reserves the right to realign any Trees after they have been set.
2. Trees too large for hand handling, if moved by winch or crane, must be thoroughly protected from chain, rope or cable marks, girdling, bark slippage, limb breakage and any other damage that might occur by improper handling or negligence.
- B. Backfilling: Use soil prepared as described in this Section. Backfill the bottom two-thirds (2/3) of the planting hole and firmly tamp and settle by watering as backfilling progresses. After having tamped and settled the bottom two-thirds (2/3) of the hole, thoroughly puddle with water and fill remaining one third of the hole with planting soil, tamping, and watering to eliminate air pockets.
 - C. Apply fertilizer to Trees three (3) weeks after planting.
 - D. Contractor must, for fertilizer for large Trees that requires five (5) pounds or more of fertilizer, Place fertilizer evenly spaced at the edge of the root ball into holes poked in the soil to a depth that allows the fertilizer to be poured below the root zone of adjacent shrubs and grass, to avoid burning of these Trees.
 - E. Water Trees and sod thoroughly two days prior to applying fertilizer and wash fertilizer off Tree leaves immediately after fertilizing.
 - F. Mulch: Within 24 hours after planting, Contractor must apply mulch in the planted area(s). The mulch must be uniformly applied to a depth of approximately one inch or other depth as indicated otherwise, over all shrub and ground cover areas, (except Wedelia) and in three-foot (3') diameter circles around Trees and palms in sod areas. Keep mulch back a minimum of 4-6 inches from the base of the trunk.
 - G. Staking and Guying
 1. As detained in ANSI A300 (Part 6)-2012 Planting and Transplanting/ 2015 FDOT Design Standards or most recent publication where applicable.
 2. The Contractor must remove and dispose of materials when it is determined that sufficient time has elapsed for the roots to stabilize the Tree, and as approved by the Town.
 - H. Watering After
 1. Initially, water the Tree to develop uniform coverage and deep-water penetration of at least six inches. Avoid erosion, puddling, and washing soil away from Tree roots.
 2. Provide continuous watering of Tree and sod after planting in order to achieve optimum growth conditions to establish the Tree. Water must be applied as necessary and the amount of water and frequency of watering must be based on the specific needs of each Tree type, the time of year, amount of rainfall and other environmental conditions it is exposed to. This watering must begin after the Tree is planted and continue until final acceptance or for a minimum of sixty (60) consecutive calendar days, whichever is greater in time. All Trees must be hand-watered during this period. Hand watering may be performed by truck or tank if water is not available at the site. Do not rely on any irrigation system that may be present to achieve this task. It may deliver the volume of water required, without flooding areas beyond where water is needed or by over-watering other landscape material or it may not be operational. New sod that is needed as a result of the Work performed, must be of the St. Augustine variety, unless otherwise specified by the Town, and must be hand-watered on top immediately after placing and rolling, and once daily for one (1) week afterwards.
 3. Canopy watering of existing, transplanted Trees may be required at the discretion of the Town, using misting heads on PVC risers to cover entire canopy. Operate by hand or on a time clock to spray as required to keep soil at root ball from getting too wet.
 - I. Pruning and Thinning

1. All Work must be consistent with ANSI 300 Standards.
 2. The amount of general pruning and thinning must be limited to the minimum necessary to remove dead or injured twigs and branches and to compensate for the loss of roots as a result of transplanting operations. Pruning and thinning must be done in such a manner as not to change the natural habit or shape of a Tree. The Town must be contacted prior to performing any major pruning and thinning. The Town may elect to be present during any pruning and thinning.
 3. All broken or damaged roots must be cut off smoothly.
 4. "Hat racking" will only be allowed with the prior written approval of the Project Manager.
- J. Weeding
1. In the event that weeds, or other undesirable vegetation becomes prevalent to such an extent that they threaten Tree, they must be removed. This condition will apply during the construction, maintenance, and warranty periods.
 2. If necessary, the planting material, mulch, sand, or planting soil must be replaced as needed to eliminate weeds or undesirable vegetation at the expense of the Contractor.
- K. Removal of Tree Material
1. All Trees to be removed must be removed completely, including the rootball, from the job or as directed by the Town. The remaining hole must be filled with suitable material or planting soil as directed by the Town.

E1.16 RESPONSIBILITY PRIOR TO FINAL ACCEPTANCE

- A. Maintenance Prior to Final Acceptance:
1. Maintenance will begin immediately after each Tree is planted and continue except for the watering indicated in the paragraph below. The watering must begin as indicated and must continue until completed, even if the indicated period goes beyond the time of final acceptance.
 2. Tree maintenance includes watering, pruning, weeding, cultivating, repair of erosion, mulching, tightening, and repairing of guys, stakes, braces, etc., replacement of sick or dead Trees, resetting Trees to proper grades or upright position, maintenance of the watering saucer, fertilizing, and all other care needed for proper growth of the Trees.
 3. Immediately after planting, each Tree must be watered and the watering period must continue until final acceptance or for a minimum of 60 consecutive calendar days, whichever is greater in time. Refer to the section entitled "Watering" for additional requirements.
 4. All Tree material must be weeded once a week. In the event that weeds, or other undesirable vegetation becomes prevalent to such an extent that they threaten Tree material, the weeds must be removed as directed by the Town. If necessary, the Tree material, mulch, sand, or planting soil must be replaced as needed to eliminate weeds or undesirable vegetation at the expense of the Contractor.
 5. Insecticides and Fungicides:
 - a. Contractor must apply all insecticides and fungicides as needed, for complete control of pests and diseases during the warranty period. The materials and methods must be in accordance with highest standard horticultural practices, and approved by the Town, prior to implementation.
 - b. When a chemical is being applied, the person using it must have in their possession a specimen label and the Material Safety Data Sheet. Also, the chemical must be applied as indicated on the said labeling. Only products approved by the Federal Environmental Protection Agency are to be used. No products containing 2-4D must be used.

- c. The spraying of insecticides and other such chemicals are to be confined to the individual Tree. Spraying techniques which may introduce the material being sprayed beyond the immediate area of the individual Tree, is strictly prohibited.
 - d. The implementation of control measures for pests and disease infestations must be in strict compliance with all federal and local regulations. Upon request, the Contractor must furnish documentation of such compliance.
 - e. All insecticides must be applied by an operator licensed pursuant to Chapter 487 of the Florida Statutes. The operator must have the license/certification in their possession when insecticides are being applied.
- 6. Protection: Planted Trees must be protected against trespassing and damage. If any Trees become damaged or injured, they must be treated or replaced as directed and in compliance with the specifications at no additional cost to the Town. No Work is to be done within or over planting areas or adjacent to Trees without proper safeguards and protection.
 - 7. Keep sidewalks, curbs and gutters, drainage structures, driveways, parking areas, streets, terraces, decks, and pavers free of Tree cuttings, debris, and stains.
 - 8. Material rejected during the course of construction must be removed within ten (10) working days and replaced before an inspection for completion will be scheduled.
 - 9. If the Contractor fails to perform maintenance consistent with these specifications, as determined by Town then Town may perform any necessary maintenance and back-charge the Contractor for labor and materials.
- B. Survival and Conditions: The Contractor will be responsible for the proper maintenance and the survival and condition of all landscape items from the time a landscape item is installed until final acceptance.
 - C. Replacement: Replacement of Trees is the sole responsibility of the Contractor including the possible replacement of Tree material resulting from removal by theft or vandalism or acts of negligence on the part of others. All Tree material must be alive and in good growing condition for each specific kind of Tree at the time of final acceptance.
 - D. Rating: The rating of Tree material according to Florida Grades and Standards must be equal to or better than that called for on the plans and in these specifications at the time of final acceptance.

III. Firm Qualifications

SFM Landscape is the premier landscaping company in South Florida. Our Team is equipped with a vast knowledge in horticulture. SFM Services is part of FNGLA, ISA, TCIA, and ATSSA for Safer Roads. We are also FDOT pre-qualified.

SFM is a “one-stop shop” for municipalities and commercial businesses to outsource the necessary services to maintain a clean and safe environment for its residents, tourists, and business community. SFM is not your typical landscape company. Our company has the experience, talent, and practices of a national firm, but the service and area knowledge of a local company dedicated to its clients and client needs. We offer a unique blend service including but not limited to:

- Disaster Recovery Services
- Tree Trimming, Pruning, Removal
- Litter Control
- Comprehensive Janitorial Services
- Landscape Design & Installation
- Stump Grinding
- Street Sweeping & Canal Maintenance
- Comprehensive Landscape Services

SFM has experience providing year-round landscape maintenance services, and tree trimming & removal services to some of South Florida’s most prominent medical and educational facilities such as Baptist Health South Florida, Broward Health, Miami-Dade College, and the Miami-Dade County School Board. Some of our most notable clients from the public sector include:

- City of Doral
- City of Tamarac
- City of Coral Gables
- Town of Miami Lakes
- City of Homestead
- Village of Biscayne Park
- City of Miramar
- City South Miami
- Village of Key Biscayne
- City of Margate
- City of Fort Lauderdale
- City of Miami Beach
- City of Miami Springs
- Florida Department of Transportation
- City of North Miami Beach
- North Bay Village

SFM has moved its headquarters to the Town of Medley. Our facility has approximately 11,000 square feet of office space, over 16,000 square feet of warehouse space, and just over 3 acres of land. That, plus access to the latest equipment and a fleet of over 100 vehicles sets us apart from the rest. SFM has 3 full-time mechanics to service our entire fleet year-round. Additionally, SFM has a Broward Branch centrally located in the City of Margate.

Our landscape company has a wealth of experience beautifying entire cities after successful tree planting projects. SFM Landscape only works with top quality nurseries and experienced crews to provide healthy properly grown trees. Our team of professionals specialize in installation, irrigation, fertilization and much more.

SFM Services was a prime contractor for the City of Coral Gables Tree Succession Project. The Tree Succession Project started in 2017 and was originally intended to plant 3,000 trees throughout the city. We completed that phase right before Hurricane Irma. In 2018, we started a new phase of the project, installing an additional 1,000 trees to replace those damaged in the storm. Overall, SFM planted over 4,000 trees throughout the City for this project alone.

SFM was also contracted by the City of Doral to participate in their “Neat Street Project” A project that would restore some of their canopy that has been lost throughout the years. SFM furnished and installed the desired trees throughout different locations. The planting of these trees will not only benefit the City, its residents, and visitors, but will also improve the community’s pride and increase the property’s value. This increase in canopy will also reduce heat from the ROW produced by traffic and enhances aesthetics.

The Right Choice

SFM has proven through our capabilities and wherewithal to be a professional, reliable, and competent contracting partner. SFM has the experience, qualifications and most importantly, the commitment to service the Town of Miami Lakes. We enforce a drug free policy, and all employees are bonded and go through a criminal background check. SFM is confident that we are still the right choice for the Town of Miami Lakes.

Drug Free Workplace Program

SFM IS PROUD TO PARTICIPATE IN THE NATIONAL DRUG FREE WORKPLACE PROGRAM.

It is our desire to provide a drug free, healthy, and safe workplace. To promote this goal, employees are required to report to work in appropriate mental and physical condition to perform their jobs in a satisfactory manner. While on our account premises and while conducting business-related activities off premises, no employee may use, possess, distribute, transfer, sell, or be under the influence of alcohol or illegal drugs to help ensure a safe and healthy working environment.

Much like seat belts with automobiles, Insurance companies have stringent requirements in the coverage they provide. Job applicants and employees may be asked to provide body substance samples (such as urine and/or blood) to determine the illicit or illegal use of drugs and alcohol at any time during their employment if there is justifiable cause to do so.

All employees are subject to post accident drug testing. An employee involved in a work-related injury is required to take a drug/alcohol test with their post-accident visit at any care provider.

SFM's Drug-Free Workplace Policy sends a clear message that alcohol and drug use in the workplace is prohibited.

Objectives/ Goals

- To reduce drug use in the workplace
- To increase productivity
- To improve efficiency
- To reduce accidents in the workplace
- To deliver better customer service
- To demonstrate a more professional attitude and standard of conduct
- Encourage employees who have alcohol and or substance abuse problems to voluntarily seek help

To achieve these goals, SFM Services conducts:

- Initial and periodic safety training sessions
- Drug Abuse Awareness pamphlets
- Random Drug Screening of existing employees
- Alcohol and Drug screening in the event of work-related accidents
- Complete drug Screening of all job candidates prior to start of assignments
- Formal and informal counseling by trained supervisors

Uniform & ID's

We realize the importance that a properly identified employee can have working in the Town of Miami Lakes. For this reason, SFM provides uniforms that are easily identifiable and professional. Shirts are made of a polyester-cotton blend that makes it easy for our landscapers to keep them clean. We issue five sets to each landscaper and mend or replace them as needed.

Should the Town wish a different type of uniform, we can provide shirts, slacks, windbreakers, and parkas, all labeled with the SFM logo. By request, we can provide uniforms tailored to represent you, matching colors, and logos.

The identification card is just as important as a clear identifiable uniform. Every SFM employee is provided an employee ID and required to carry it with them during work hours.

SFM understands and enforces the need to have all personnel clearly identified. We want to make sure your residents feel safe and that they always know who is working around them.

SFM Full-Service Crew

Safety & Training Program

SFM is committed to the safety and wellbeing of our employees. Our safety workplace and training program was developed to implement a safe and healthy work environment for both employees and clients. The Human Resources and Risk Management Department is responsible for developing, implementing, administering, monitoring, and assessing the safety program. This program is a top priority for SFM; Its success depends on the alertness and personal commitment of all.

Education and training provide employers, managers, supervisors, and workers with:

- Knowledge and skills needed to do their work safely and avoid creating hazards that could place themselves or others at risk.
- Awareness and understanding of workplace hazards and how to identify, report, and control them.
- Specialized training when their work involves unique hazards.

As new hires onboard, they are provided with both education and training material relevant to their job as well as general safety procedures. All managers, supervisors, and workers are subject to continuing education and training as deemed necessary or requested.

Effective training and education are also provided outside our traditional classroom setting. Peer-to-peer training, on-the-job training, and worksite demonstrations are conducted to convey safety concepts, ensuring understanding of hazards and their controls, and promoting good work practices.

To ensure employees understand the material covered, every employee must complete and sign off on an Employee Orientation and Competency Assessment. Each employee is expected to obey safety rules and exercise caution in all work activities. Employees must immediately report any unsafe condition to the appropriate supervisor. Employees who violate safety standards, who cause hazardous or dangerous situations, or who fail to report, or, where appropriate, remedy such situations, may be subject to disciplinary action up to and including termination of employment. Employee training and education is documented and becomes a part of their employee file.

SFM has a Safety Committee Organization as a management tool to recommend improvements to our workplace safety program and to identify corrective measures needed to eliminate or control recognized safety and health hazards. Management will give top priority to and provide the financial resources for the correction of unsafe conditions.

Quality Control Plan

SFM uses a quality control program that will guarantee all services are performed to the highest standard as recognized by custom and usage in the industry. Enclosed we describe some of our methods regarding our inspection program that involve first line employees, supervisors and the management team. All are involved in quality control and all are trained to understand their role in this project. We also have Quality Control Officers that are involved in all SFM's accounts. Our Quality Control Officer is and will continue to be very active in this account. Other than safety, providing the best possible service to our customers is paramount. And that can only be achieved by maintaining excellent quality standards.

How does SFM rely on technology to maintain quality control for every client? SFM uses a quality control software named "Orange QC".

Program Objectives:

- Ensure that all employees have the knowledge and skills needed to perform their job
- Develop new skills in current employees to enable them to absorb changes in technology
- Improve the productivity of both individuals and work teams
- Encourage employee self-development and involvement in programs of lifelong learning

This software allows the SFM Quality control officers to:

- Perform inspection using a smart phone or tablet.
- Monitors account performance & sends real time alerts based on triggers you set.
- Generate reports for customers

The SFM Quality Control Program consists of two mutually supporting modules:

1. **Quality Control Plan** – establish standards, supporting processes, performance objectives and performance indicators to meet all performance requirements.
2. **Quality Control Monitoring Plan** – implement SFM QC to provide a structured approach to performance monitoring, deficiency avoidance, corrective actions and reporting.

RE: CERTIFICATE OF QUALIFICATION

The Department of Transportation has qualified your company for the type of work indicated below.

FDOT APPROVED WORK CLASSES:
DEBRIS REMOVAL (EMERGENCY), LANDSCAPING

Unless notified otherwise, this Certificate of Qualification will expire **6/30/2023**.

In accordance with Section 337.14(4), Florida Statutes, changes to Ability Factor or Maximum Capacity Rating will not take effect until after the expiration of the current certificate of prequalification (if applicable).

In accordance with Section 337.14(1), Florida Statutes, an application for qualification must be filed within (4) months of the ending date of the applicant's audited annual financial statements.

If the company's maximum capacity has been revised, it may be accessed by logging into the Contractor Prequalification Application System via the following link:
[HTTPS://fdotwp1.dot.state.fl.us/ContractorPreQualification](https://fdotwp1.dot.state.fl.us/ContractorPreQualification)

Once logged in, select "View" for the most recently approved application, and then click the "Manage" and "Application Summary" tabs.

The company may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing the most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that the company has performed such work.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.

RE: 2023-24 General Hauler Permit Approval and Decal

Dear Mr. Infante:

Thank you for your recent General Hauler Permit application. **SFM Services, Incorporated** (Permit #17121) has been approved through **January 31, 2024** to transport solid waste in Miami-Dade County.

Enclosed you will find two (2) decals #GH24-0141 for the **2000 Mack (Tag #P3725G)** & #GH24-0142 for the **2000 Mack (Tag #P5189D)** approved to transport solid waste in Miami-Dade County under this permit account.

Each decal should be permanently affixed on the inside (upper) driver's side windshield of the vehicles. Any vehicle observed transporting without a decal permanently affixed to the windshield is in violation as prescribed in Chapter 15-17 of the Code of Miami-Dade County.

Please note that the Department of Solid Waste Management has the authority at any time, to request an accounting of the following.

- A summary of the number of tons of solid waste collected quarterly based on schedule service, as of the reporting date.
- A summary of the number of tons of recyclable material collected and marketed quarterly, on a schedule and format prescribed by the department.

You are advised to maintain accurate records in the event such a request is made. It is also recommended that you keep this document on file as proof of your General Hauler Permit approval.

In addition, General Haulers with solid waste accounts in unincorporated Miami-Dade County must report and pay monthly, a disposal facility fee on all accounts except recycling pickup or non-reoccurring C & D pickups.

Should you require additional information specific to your permit, contact the Permit Section at 305-514-6610. If you need assistance with the requirements of the Disposal Facility Fee, contact **Christene Seymour** at 305-514-6617 or via e-mail at Christene.Seymour@miamidade.gov.

Sincerely,
